A prominent component (particularly in Dialectic) of the critique of instrumental reason is a critique of formalistic rationality, which evokes the criticism of the Cartesian mathematical method in "Traditional and Critical Theory." On the face of it, one might question the necessary link between "formal" and "instrumental."

Max Horkheimer (Stanford Encyclopedia of Philosophy)

For Habermas, the undue importance attributed to instrumental reasoning has profound moral and philosophical consequences for Adorno's general vision. Habermas insists that Adorno's understanding of reason amounts to a renunciation of the moral aims of the Enlightenment, from which critical theory itself appears to take its bearings.

Introduction. In a recent post on the popular German positive psychology (PP) blog Mappalicious, Sonja Lyubomirsky was quoted as saying, "I hope for the label 'positive psychology' to be retired. We don't need it anymore" (Rose, 2016). This raises a question in the minds of PP practitioners and enthusiasts: Is the field spearheaded by Seligman and Csikszentmihalyi (2000) on its last legs?

One of the most important theoretical challenges facing us is developing a viable alternative to capitalism. Achieving this requires rethinking basic premises of social theory and practice, given the difficulties of freeing humanity from such problems as alienation, class domination, and the capitalist law of value. Taking off from Marx's Concept of the Alternative to Capitalism, this ...
