At the center of Hegel and the Problem of Multiplicity is the question: what could the term "multiplicity" mean for philosophy? Andrew Haas contends that most contemporary philosophical understandings of multiplicity are either Aristotelian or Kantian and that these approaches have solidified into a philosophy guided by categories of identity and different--categories to which multiplicity as such cannot be reduced.

We can then see how Kant's theory goes a long way in addressing the problem shown in The Big Two. Her discussion of Hegel is, if anything, even more clear, and paints Hegel in the light of a theorist concerned about recognition and normativity in society, rather than strange accounts of God, logic or nature.
