Illusions of Prosperity: America's Working Families in an

...

Essential to Blau's case for greater government intervention and more "economic democracy" is his factual claim that recent prosperity is an illusion, save for all but the richest Americans. He cites familiar statistics and studies purporting to prove that the average American household reached its peak of earning power in 1973 -- and that it's been downhill ever since.

Read PDF Illusions Of Prosperity Americas Working Families In An Age Of Economic Insecurity

In Illusions of Prosperity, Blau launches a far-reaching assault on idea that "the market" knows best. Blau writes that while the share of the national income held by the bottom four fifths of the population (the poor and broad middle class combined) has continued to decline, the top fifth gained 97 percent of the increase in total household income between 1979 and 1994.
