In 1971 the Rival Company introduced the Crock-Pot, an electric cooker containing a removable glass or ceramic crock. By maintaining low temperatures, the Crock-pot cooked food slowly and could be left safely unattended for hours. The appliance quickly gained popularity in the 1970s, as more and more women were working outside the

cooking appliance named the Bean Pot
that used a heating element that
wrapped around a stoneware crock,
providing continuous, even heating that
required no supervision or constant
stirring.
